

02/01/2023

To my valued patients:

I am fortunate to have found a very skillful dentist to take over my dental practice. Her name is Dr. Stacy Temple. I will continue to work Tuesdays and Wednesdays while Dr. Temple will work Thursdays and Fridays.

Dr. Temple graduated from Tufts School of Dental Medicine in 2010 and has worked as an associate for other dentists until 2018 when she bought her present practice in Quincy, MA.

With three young children at home in Newton, Dr. Temple wished to spend less time on the road. Fortunately for me, her interests and mine coincided. We agreed to a contract whereby we will share the work week for the indefinite future.

Dr. Temple has worked with me for almost a year. I have found her work excellent, her chairside demeanor warm and friendly and her proposed treatment plans very much in line with my way of treating patients. It is hardly necessary to mention that her Quincy patients all give her practice 5 star reviews and she intends on keeping that reputation here in Wellesley as well.

During the transition and beyond, my devoted staff will be there to provide the excellent dental care you've come to expect from my office.

I am both pleased and excited to welcome Dr. Temple to my practice. I am confident you will feel the same when you meet her.

Peter W. Brodie
